

# Community Health Quiz

Since 2013, we have been working with Indigenous communities to help them become resilient, vibrant, and self-sufficient. We do this by offering a suite of services that build organizational resilience and ensure long-term success for our clients—including governance, strategy and planning, management and capacity building - in order to help them succeed on their own terms.

## Do you want to build a thriving community?

We can help. Use this community strength calculator to see how exactly we can help you.

## Work with us

We are a result-oriented social-purpose advisory firm that specializes in supporting Indigenous Nations engage their membership to define challenges and overcome them in an empowering way. Our uniqueness rests within our ability to make the people we work with heard by involving them in planning, decision-making, implementation, and reporting phases of any given initiative. Simply put, we strategize big ideas but more importantly we operationalize them by bringing together the right people, relevant technology, and required resources.
